Continuation of Substance of Interview including description of the general nature of what was discussed:

The Examiner called the Attorney of record to indicate that there were no basis (support) in the originally filed specifications for the newly added independent claims 30-32, reciting "a computer program product, embodied on a computer readable medium". The Examiner pointed out that the originally filed specifications did not mention or made any reference to either a "program product", or a "computer readable medium". The Examiner requested permission to cancel the newly added claims 30-32 via an Examiner's Amendment. Permission was granted by the Attorney of Record.
